

NEW Trade-in program from a vendor you can count on

Receive up to \$3,000 for your old KVM/Serial Console Switch!

Manage Smarter and Save

For a limited time, you can take advantage of an unprecedented offer from Raritan. Simply trade in your existing Avocent® or Raritan KVM/Serial Console switches and cost effectively migrate to our next generation **Dominion®** family of KVM-over-IP, Serial and **CommandCenter®** Centralized Management solutions.

Migrate at Your Own Pace

Remotely access and control servers connected to Avocent KVM switches with our CommandCenter centralized management system. Not yet ready to entirely migrate to Raritan? It is good to know you can manage your existing Avocent switches with Raritan too! Call your Raritan reseller for more information.

Most Reliable Vendor

Raritan, an industry leader since 1985, continues to maintain full commitment to customer satisfaction and technical innovation. We continue to evolve and expand our solutions with new features that matter to improve the user experience, help manage costs and maintain the highest security capabilities.

Benefit from Unbeatable Features

Standard features within the **Dominion KX II** include dual power supplies and dual Ethernet ports, Universal Virtual Media, Absolute Mouse Synchronization™, HD remote video resolution, Smart Card support, FIPS 140-2 validated cryptographic module and AES encryption.

CommandCenter Secure Gateway provides centralized access and consolidated security to the entire IT infrastructure, all from a single GUI including virtual machines, rack mounted servers, blade systems, embedded service processors and other networking devices.

Your Saving
